Your agreement requires insurance on the financed equipment. If we don't have proof of your own coverage, we place coverage through our partner EquipSure and bill it monthly; it shows on your bank statement as Equipsure, LLC. Send a certificate that meets every point below and we stop the EquipSure charge from the day we verify it.

Your certificate must show

1. Property coverage on the equipment, including theft (Special Form / All Risk, inland marine or an equipment floater). General or professional liability alone does not qualify.
2. Coverage at or above the equipment's replacement value.
3. The equipment's make, model and serial number, and your agreement number.
4. The named insured and the equipment's physical address matching your agreement (no PO box).
5. The loss payee shown on your account page, named as loss payee (not only as certificate holder).
6. A current, unexpired policy, on an ACORD certificate or the declarations page.

How to send it

Upload it on your account page (Insurance), or email it to help@leasepoint.com with your agreement number.
